

MM Super Auto

The MM Super Auto represents the next evolution of espresso innovation and design. Patent pending temperature precision, dual grinders and one touch under counter automation that is anything but traditional.

Future forward. Super Automation Reimagined.

Coffee With One Touch

Serve two espresso options and hot water, on demand

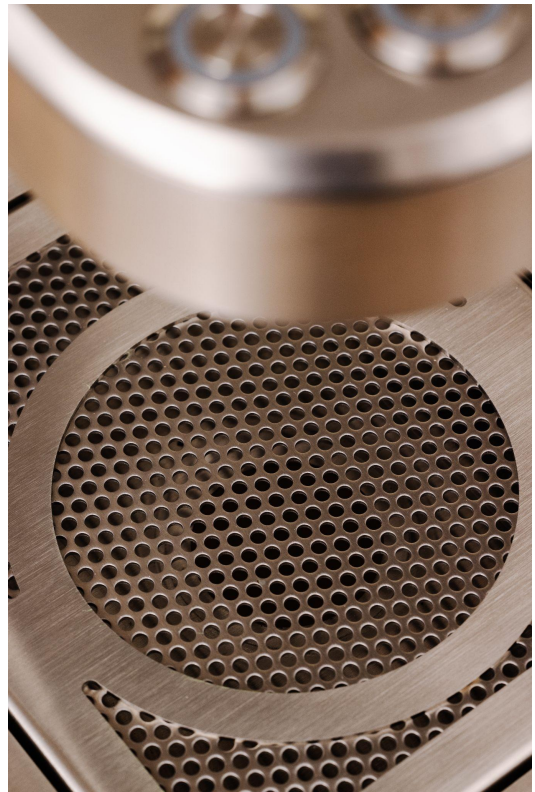

Dual Grinders

Features dual 65mm flat burr sets for consistently accurate dosing

58mm Heated Brew Chamber

Replicates traditional portafilter basket size and maintains temp stability for optimal extraction (Patent pending)

Fully Volumetric with Adjustable Pre-Infusion

Produces an espresso shot every 20-30
Seconds

Specifications

MM Super Auto

Dimensional Data	
Interface	9" / 23cm L x 14" / 35.5cm D x 9" / 23cm H
Boiler Unit	16" / 40.5cm L x 18" / 46cm D x 13" / 33cm H
Electrical & Power Data	
Voltage	208-240v
Phase	Single or Three
Frequency	50/60hz
Amps	17
2x 2L Boiler	4kW total
Certifications	CE, UKCA, ETL, NSF
